**Prashant Das, Divyanshu Sharma : Real Estate Finance in India** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Real Estate Finance in India:

The book offers a concise yet comprehensive understanding of real estate finance in India. The central themes of this book are functioning, instruments, and decision analysis related to home loans and residential mortgage banking. These themes are also extended to commercial real estate borrowing and secondary markets.

A textbook of this nature is overdue for Indian students. It addresses exhaustively the needs of various segments of the market in India. In content and quality of analysis and presentation, it has set a new benchmark for texts in this subject addressed to the Indian market.
