Restart by pressing the reset button By Nasim Beg An excellent analysis of what ails not only India but the entire Subcontinent, where over 1.5 billion people exist at under \$5 per day. The very valid remedies are termed as reforms; these would be best termed as a revolution, as these changes cannot creep in as reforms, one needs to press the reset button, yes indeed, the need is for a RESTART of 0 people found the

The author does a great job of chronicling the problems that are plaguing the Indian economy. The Modi government so far has not done much to correct the course. Seems like another missed opportunity.

good read, even though what it says is nothing very original.

In Restart, Mihir S. Sharma shows what can and must change in India's policies, its administration and even its attitudes. The answers he provides are not obvious. Nor are they all comforting or conventional. Yet they could, in less time than you can imagine, unleash the creativity of a billion hopeful Indians.

About the Author
Mihir S. Sharma was born in Delhi and grew up in Chandigarh, Mumbai, Jamshedpur and in Kolkata. He was trained as an economist and a political scientist before dropping ignobly out of academia. Like many others unable to concentrate on any one thing long enough to write a dissertation, he drifted from one thing to another till he found the closest thing to paid unemployment in a capitalist society-journalism. He now writes and edits opinion for the Business Standard newspaper in New Delhi.
