David L Seim : Rockefeller Philanthropy and Modern Social Science (Studies in Business History) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rockefeller Philanthropy and Modern Social Science (Studies in Business History):

Making use of untapped resources, Seim looks at the impact of the Rockefellers, viewed through the lens of their philanthropic support of social science from 1890-1940. Focusing specifically on the Rockefeller Foundation and the Laura Spelman Rockefeller Memorial, Seim connects the family's business success with its philanthropic enterprises.

'the wealth of information contained in this study is rewarding for any scholar interested in the history of social sciences, university education, race relations, and public policy in the twentieth-century.' EH.Net 'Seim's attention to fine detail brings new insights to light.' Isis
