From For Dummies : Small Business Finance All-in-One For Dummies before purchasing it in order to gauge whether or not it would be worth my time, and all praised Small Business Finance All-in-One For Dummies:

6 of 6 people found the following review helpful. UK EditionBy raptayI was excited to get this book, but surprised that it is the "UK Edition." Nothing is said in the explanation of the book- at least that I could find - that identified this as the UK Edition. I certainly did not expect the UK Edition. I think it is essentially the same, just has some specifics with regard to UK law, etc.5 of 5 people found the following review helpful. This is the UK EditionBy Amy D.I also received the UK Edition. My husband ordered it for me in support of my fledgling new business venture. I skimmed through it, and was hoping it would just be appended with UK-Related information, but no - it is truly for the UK market. I do not see an offering of an Edition for the US market, so I suppose I will need to ask my husband to return it.5 of 5 people found the following review helpful. US buyers - This Is the UK EditionBy Dianne CowanNot only is this the UK edition, it appears that there is no corresponding US edition. I'm rating this one because I wish it were more clearly identified as such, both on in the title.

Keeping track of the finances is fundamental to the success of every business, but tackling the task yourself can be intimidating.
