It touches on most customs and gives a good idea of what to expect and how to react. Said this, the volume has many redundancies, which has the advantage of making the reader familiar with the concepts, but all in all these redundancies are simply too many.0 of 0 people found the following review helpful. A first exposure to Sri LankaBy BobIn few months I will be making my first trip to Sri Lanka and I believe this book will serve me well.0 of
