**From Springer : Stock Market Policy Since the 1987 Crash: A Special Issue of the Journal of Financial Services Research** before purchasing it in order to gage whether or not it would be worth my time, and all praised Stock Market Policy Since the 1987 Crash: A Special Issue of the Journal of Financial Services Research:

Since the US stock market crashed on October 19, 1987, many studies have been conducted to learn from this experience in the hopes of avoiding a similarly adverse future fall. The book, originally published as a special issue of the *Journal of Financial Services Research*, considers some of the important policy adjustments that have been implemented in the wake of the 1987 crash. Taken separately and together, these five papers offer a synthesis and summary of the most important policy innovations that have evolved since the largest single-day decline in stock market history.
