From Kogan Page : Supervision in Coaching: Supervision, Ethics and Continuous Professional Development before purchasing it in order to gauge whether or not it would be worth my time, and all praised Supervision in Coaching: Supervision, Ethics and Continuous Professional Development:

0 of 0 people found the following review helpful. Thought-provoking By Lynne Cooper Coaching supervision is a relatively new field, so it's good to get a new book on the subject. I was surprised to find that the emphasis of the book is more about CPD for coaches, with supervision just a part of what's discussed. Having said that, there is much that

interested me, as a coach and coaching supervisor, and I think it would be a useful read for buyers of coaching services too. There's a range of thinking about, and approaches to, supervision. There's debate on what constitutes supervision, useful insights into reflective practice, other forms of CPD and exploration of the important area of ethics. There's even a chapter on legal issues for coaches, a rare bonus. Overall a quite eclectic collection but probably something for everyone.

Coaching is rapidly growing from a young, emerging profession to one that is becoming more established on a global scale. As professional coaching grows, so does the need for a more formulated approach to regulation, ethics and individual development. In order for coaches to develop their skills and knowledge they need to make continual professional development and supervision a core aspect of their practice. *Supervision in Coaching* examines how coaches can use a range of professional development tools to improve and develop their coaching. Written by a team of international coaching practitioners, it provides essential guidance on this increasingly key area of coaching practice. The authors provide advice on a range of topics, including approaches to supervision, managing ethical dilemmas, the role of regulation and licensing in coaching and the development of accreditation and professional standards.

"This collection of seventeen articles on professional standards in business and personal coaching showcases current scholarship in the area of supervision and the development of best practices for coaching professionals." --Book News, Inc.
About the Author Jonathan Passmore is an occupational psychologist, coach, and coaching supervisor. He has wide business consulting experience, having worked for PricewaterhouseCoopers, IBM Business Consulting and OPM, and as a chief executive and company chairman in the sports leisure sector. He is based at the School of Psychology, University of East London, and is Director for the Coaching and Coaching Psychology programs. He is the author of several books and editor of *Excellence in Coaching* and *Psychometrics in Coaching* (all published by Kogan Page).
