**Fehmy Saddy : The Arab World and Latin America: Economic and Political Relations in the Twenty-First Century (Library of International Relations)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Arab World and Latin America: Economic and Political Relations in the Twenty-First

Century (Library of International Relations):

With the growing importance of emerging markets the focus of analysts has begun to concentrate on the contribution of Latin America and the Middle East to the global economy, and the relations between these two regions. This has become ever more important with the trend in Latin America to diversify their trade relations and establish closer economic and political ties with other emerging economies, including the Middle East and North African (MENA) countries. *The Arab World and Latin America* examines the relations between these two regions, highlighting the often-overlooked cultural similarities, as well as exploring the political and economic ties that are being developed. As relations with and between countries in the Global South become ever more important for trade and investment, both politically and economically, this volume offers vital analyses for researchers of international relations as well as the politics and culture of the Middle East and Latin America.
