**Laurence S. Lyons : The Coaching for Leadership Case Study Workbook (J-B US non-Franchise Leadership)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Coaching for Leadership Case Study Workbook (J-B US non-Franchise Leadership):

0 of 0 people found the following review helpful. the problem/case format is a great idea. HoweverBy LCNot what I was expecting, the problem/case format is a great idea. However, the way the problems are resolved is sophomoric. Moreover, the problems do not get more complex. There are better books1 of 2 people found the following review helpful. Subtly and with humor, the insights sneak upon you!By Christopher CappyI have read and looked through several thousand business books over thirty years of consulting and teaching in business domains, and this particular offering I hold in highest esteem for a creativity that runs both broad and deep. Larry Lyons has provided an adventure-grade journey into the deeper recesses of corporate life and done so with stories that are truly effective parables. Dr.

Fink is the Sherlock Holmes of corporate intrigue and mystery where there remain so many unresolved Who Dunnits! While this starts (and can stay) as an easy, entertaining read written with humor, grace and style, I found myself initially relaxed with familiar stories and then un-nerved with the slow motion and cumulative wisdom that emerged and provoked some deep thinking about my work, ways I've approached it, and fundamental assumptions that I'd held "as if" true. This is original thinking that can change and re-orient a reader's dominant logic about "the way things are." There is lots of experience and insight between these lines delivered in an engaging and familiar form... powerfully subtle and pointing the reader beyond the words towards wisdom. Thanks for the trip, Dr. Lyons... I am still tripp'in!

0 of 0 people found the following review helpful. Bravo! Witty and unique stories grounded by essential organizational learnings

By Karen Steadman

In a world full of a myriad of options to read about leadership, it is rare to find a resource that will help move the dial on results. Dr. Fink is that rare find! The format contains very accessible short vignettes that are rich and multilayered - the stories are written in such a way that the learnings will be different as one increases in experience or re-reads the information. How often does one find a book that is actually worth reading more than once? This case study workbook is fully experiential. It is impossible to avoid becoming immersed in the characters while, at the same time, find yourself thinking, "what would I do at this moment?", or "how does this apply to my current situation?". As a coaching psychologist, I believe this workbook would be a valuable reading requirement for coaches at any level to read, discuss, apply, and share peer-peer consultation with other coaches. In addition, I can see great value in having my clients read the stories as many of them would have eye opening experiences....there are a lot of recognizable characters in these stories who could easily be sitting down the hall. Well done!

This book will change the way you think. In this whacky world the best jobs go to the worst people. Careers fizzle out at the drop of a hat. To protect next year's budget you've got to waste whatever's left of this year's money. Matrix victims quietly go missing. Companies merge and frequently go bust. And everything's tightly controlled by a secret underworld Finance mafia. Does this sound familiar? You've entered the rough and tumble realm of corporate business where crazy things happen and it's tough to survive. Welcome to the counter-intuitive playground of organizational life. Come along for a white-knuckle ride through our organizational theme park. Your companion guide is the streetwise Dr. Finkmdash; the world's expert on organizations. Allow this amiable practitioner to share with you the wisdom through which he consistently achieves corporate, client, and personal success as he demonstrates his magical methods for averting calamity before your very eyes. Assisted by a cast of flamboyant charactersmdash;including Matilda the well-meaning but meticulously incompetent coach, Fat Sid in finance, Adrian his top enforcer, and Mort the undertaker who runs operations into the groundmdash;join Dr. Fink on an illuminating journey down dark corporate alleyways to get the full low-down on what's really going on. And if after the trip you should ever suspect an impending disaster surfacing in your organizational lifemdash;all you have to do is ask yourself one simple question: What should I ask Dr. Fink? "An extraordinary work that will stand the test of time." mdash;Marshall Goldsmith
