Martha Maeda : The Complete Guide to Spotting Accounting Fraud Cover-ups: Everything You Need to Know Explained Simply before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Complete Guide to Spotting Accounting Fraud Cover-ups: Everything You Need to Know Explained Simply:

3 of 3 people found the following review helpful. Useful introduction to detect occupational frauds By Emilio Alvarez Arjona This book has two parts: occupational fraud and financial fraud. I liked a lot the first part, dealing with

occupational fraud and how employees manipulate the books to cover it up. One key issue with occupational fraud is to cook the books to cover up the theft. Otherwise, it would be short lived. Very interesting and well written. I think that small and medium size business will find useful tips to avoid and detect being robbed by their employees. The second part of the book, dealing with financial fraud is less interesting. Basically is an introduction to financial audit written by someone who does not seem to be an auditor. Being an expert in accounting and taxes I found this second part too basic. Overall is a worthy read. 0 of 0 people found the following review helpful. A very interesting book. By Customer I bought it to use in my class. Very interesting and easy to read. 0 of 0 people found the following review helpful. One Star By G. G. Purchased by a hacker!

According to the Association of Certified Fraud Examiners, accounting fraud cost more than \$994 billion in 2008, and the average organization lost 7 percent of its total revenue to fraud. So how can you prevent this from happening in 2010? *The Complete Guide to Spotting Accounting Fraud Cover-Ups* details how to spot minor abnormalities or forgeries in paperwork, as well as what to immediately suspect and methods for uncovering scams. You will learn the signs to look for, including excessive turnover of lawyers and auditors, changing professionals in the middle of a transaction, inconsistent information, and significant declines in stock prices. You will learn how to recognize earnings manipulation, premature and fictitious revenue, overvalued assets and undervalued liabilities, and more. This manual will be an indispensable aid for serious investors, industry pros, acquisition and merger managers, and small business owners alike. After reading *The Complete Guide to Spotting Accounting Fraud Cover-Ups*, you will no longer have to worry about accounting fraud and can focus on increasing your profits.

...Maeda's book is an excellent overview on fraud. There are a number of other books on this subject, but they are mostly more technical in nature. This work does a good job of covering a broad and complex area in its 336 pages. -- Richard P. Kozlow, Senior Managing Director, Watkins Consulting, Inc in *ABA Banking Journal* 2010 Next Generation Indie Book Awards Winner - Finance Category -- Indie Book Awards 2010 Next Generation Indie Book Awards Winner - Finance Category -- Indie Book Awards About the Author CPA
